

PRE-CLASS SURVEY

Your student number:

Please check the choice that BEST represents the extent to which you prepared for this class by reading or not reading the assigned textbook material. This will NOT affect your grade in any way. It is part of Mr. Byers trying to understand how learning takes place...so answer honestly!

	I read it closely and deeply. I even took notes or made some kind of an outline about the material.
	I read the material in the textbook, but I did not make any other special effort to master it.
	I skimmed it, read it lightly, or only read part of the material that was assigned before class.
	I really did not read it in any way at all.

POST-CLASS SURVEY

Your student number:

Now that class is over, reflect back on what you believe you learned. Please put a percentage in each box that represents the amount of information and knowledge you believe you acquired from each source. The percentages MUST total up to 100%. This will NOT affect your grade in any way. It is part of Mr. Byers trying to understand how learning takes place...so answer honestly!

	I already knew this much even before we did anything for class.
	I got this amount from reading the textbook before class.
	I got this much through Mr. Byers' teaching and explanations.
	I go this amount during the discussion back and forth in class.
