

Focus Group Survey Results April Results

1. Boys class was too loud sometimes and not as structured
2. All felt their achievement was about the same regardless of setting
3. The best part was the off-topic classroom discussions
4. Would like periodic opportunities for mixed gender settings e.g. movies together or a project or two from time to time
5. Either setting did not have an overall impact on my grade
6. All agreed that this model was more comfortable for learning
7. Mixed ability classes can be less interesting and slower
8. It was cool to be part of a research study
9. Non-honors students felt an extra sense of achievement in doing the same things as honors classes
10. Less distractions to take away my attention
11. Boys seemed to miss the girls more than girls did missing the boys
